Chilli Harvest

We have a lot of picking to do at this time of year. We have started to 'pick the plants clean' before the first frost. We've had a good harvest this year, most of which is frozen; the rest is dried or smoked.

Drying and Smoking

The dryer and smoker are working flat-out to lay down the stores for the next 12 months. Some great new varieties of dried and smoked will be available very soon.

Fresh chillies - still available

We still have some fresh chillies for sale - all chillies are fine to store in your home freezer.

Show Tunnel - still looking good, and free to visit.

Thanks for reading - more next month.
